25X1

1. In the Kutna Hora region it is said that a new airfield is under construction near Caslav (O 50/M 47). These rumors appear to be supported by the fact that the small community of Chotusice near Caslav is being evacuated and torn down. It is about 3 miles from Caslav.
2. At the same time the old cemetery which lies on the left hand side of the Kutna Hora - Caslav railroad track immediately before it reaches the city is being removed. Corpses from the cemetery are being moved to a new one at Vodranty, and the local people carrying out this job are being paid as much as 1,000 Kcs. and a half-pint of rum a day.
3. By the middle of March, the community of Chotusice had been entirely evacuated and early in April they started pulling down the buildings. Some forced labor was also brought in for the purpose.
